About the Healthcare Basic Compliance Academies

Our Healthcare Basic Compliance Academies help you get to the heart of healthcare compliance practice. These in-depth training sessions give you the tools you need to effectively manage compliance programs at your organization.

Who Should Attend?

Our academies are designed for participants with basic knowledge of and professional experience in healthcare compliance. This includes compliance officers, internal auditors, data privacy personnel, regulatory compliance specialists, and in-house or external compliance lawyers.

Why Should You Attend?

More than 9,500 compliance professionals have turned to our Basic Compliance Academies to learn the best and leading practices in healthcare compliance and ethics management. Our Academies are not conferences. Instead, they provide in-depth, classroom-style training in healthcare compliance along with great networking opportunities.

The HCCA Basic Compliance Academies also:

- Cover the core healthcare compliance training you need, including policies and procedures, effectiveness and evaluation, HIPAA privacy and security, risk assessment, auditing and monitoring, Stark and anti-kickback, and internal and external investigations
- Are taught by compliance professionals, hand-selected for their experience and teaching skills
- Limit enrollment to 75 participants per academy, ensuring personal interaction with our expert faculty
- Provide opportunities to network with both faculty and peers at a networking dinner and during training breaks.

What Will You Receive?

Course materials are provided onsite on the first day of the Academy. This includes a binder that contains all course materials.

2019 attendees will also receive a free copy of *Compliance 101* (normally \$70).

Plan to attend HCCA's three-and-a-half day in-depth program focusing on subject areas at the heart of healthcare compliance practice.

Healthcare Basic Compliance Academies

"I was a research scientist in my former life, so I've had a lot of training and attended many, many conferences. I have never had a better experience than the one I had this week. The amount of information covered, its relevance, and the extremely high quality of each and every speaker are truly unique qualities of your Academy. The information that I learned has already helped me many times. I am very thankful that I was able to attend."

—Jennifer Sartor, PhD
Director, QA/Compliance
