MALIHA CHARANIA

MEDITOLOGY SERVICES
Senior ITRM Consultant

MALIHA CHARANIA

MODERATOR
Maliha Charania is a senior IT Risk Management Consultant with Meditology Services, a leading provider of IT security and privacy services for the healthcare industry. She has designed and implemented numerous global IT security initiatives in both healthcare and academia. She has extensive technical security knowledge and has served as a Subject Matter Expert in matters of IT security and compliance for many healthcare providers, business associates, and payers of varying sizes and across the world. Maliha is an accomplished member of Meditology’s ITRM team with an MS in Information Systems from SZABIST in Karachi, Pakistan, and an MS in Information Systems with a concentration in Cyber Security from Georgia State University.

DANA CARTER

SUTTER HEALTH
Information Security Officer

DANA CARTER

PANELIST
Dana Carter is currently serving as an Information Security Officer at Sutter Health and is responsible for leading Information Security at several Sutter Health affiliates including five hospitals, multiple Ambulatory Care Centers and a Nursing University. With over 20 years of experience in Information Security and Technology with multiple certifications, Dana brings tremendous security leadership to the organization. In the constantly changing InfoSec landscape, Dana is dedicated to staying abreast and ahead of current and emerging threats. Dana holds a BA in Business Administration from Golden Gate University and is currently pursuing a Master’s Degree in CyberSecurity and Information Assurance from Western Governor’s University.
**MONIQUE HART**

**PANELIST**

Monique Hart is a seasoned Information Risk and Security Professional with practical work experience in Information Risk Management, IT Policy and Governance, Vulnerability Management, and Incident Response across a variety of verticals. Currently she is the CISO and Executive Director of Information Security for Piedmont Healthcare. In this role, she is responsible for overseeing the management of material risk of electronic Health Care information and content as it pertains to Piedmont Healthcare’s business, employee, and patient information. Previously, Monique led both the Cyber Security and GRC teams for Children’s Healthcare of Atlanta where she was responsible for managing the assessment of, and incident response to, material risk of information and content. Part of her responsibilities included developing and implementing Information Security Policy Management, Risk Assurance, Vulnerability Management and Incident Response. Prior to Children’s Healthcare of Atlanta, Monique held a leadership role with The Coca Cola Company where she was the Information Risk Manager for North America and Manager of Global Vulnerability Management for TCCC and CCBA.

**PIEDMONT HEALTHCARE**

Executive Director, InfoSec

**ANAHI SANTIAGO**

**PANELIST**

Anahi Santiago is the Chief Information Security Officer at Christiana Care Health System, the largest healthcare provider in the state of Delaware. Prior to CCHS, she spent 10 years as the information security and privacy officer at Einstein Healthcare Network where she had overall responsibility for the organization’s information security and privacy program. Santiago leads a team of information security professionals in supporting CCHS’s strategic initiatives by managing risks, implementing policies and controls and generating overall awareness. Anahi Santiago holds a BS in electrical and computer engineering as well as an Executive MBA. A transformational, results-oriented healthcare executive with proven track record of developing and leading teams, delivering profitable and sustainable business growth, enhanced contractual performance, and strengthened customer relationships.

**CHRISTIANA CARE HEALTH SYSTEM**

CISO
DID YOU KNOW...

Cybersecurity is one of the best technology jobs as rated by U.S News & World Report's "Best Technology Jobs" of 2018.

There is a huge talent gap and demand is increasing.
- Cybersecurity Ventures predicts there will be 3.5 million cybersecurity job openings by 2021 (Source).

YET...

Only about 10% of the cybersecurity workforce is made up of women (Forbes Magazine).

By the time a woman turns 16, she will have already decided NOT to choose cybersecurity as a career (Information Age).

Only 13% of Fortune 500 companies have women in top cybersecurity positions (Source).

WHY? Let's explore.

What inspired you to choose cybersecurity as a career?
Why do you think women are not interested in the cybersecurity profession?

What types of challenges do you face as a women in this field?
What is your opinion regarding the stigma that “Cybersecurity only has to do with hacking and is highly technical”?

What skills are important to develop to succeed in this career?
What can women in the industry do to raise awareness about the field?

Q&A SESSION
THANK YOU
