Out-of-Pocket Knowledge

Do you typically know the out-of-pocket cost for a medication before you fill the prescription?

Source: CVS Health

Buchanan Ingersoll & Rooney PC | 12

Out-of-Pocket Costs

- Revoke pharmacy "gag clauses" for Part D- supportive of more expensive
- 340B – inpatient and outpatient ----big turf battle
- Lots of vague talk

How the Industry views Drug Distribution

How the White House views Drug Distribution

PBMs

- Political Landscape
 - White House
 - Congress
- PBMs vs the World (almost)
- Rebates reduced costs in Part D by \$34.9B and w/out premiums ↑ 52% in 2018 (Oliver Wyman Consulting)
- "This study further confirms that drugmakers set and raise prices unrelated to the rebates they negotiate with PBMs. Drug companies keep raising prices even when rebates go down," said **PCMA President and CEO Mark Merritt**. "Simply eliminating plans' ability to negotiate price concessions would enrich drugmakers at the expense of patients, who'd not only face higher prices but higher premiums and out-of-pocket costs too."
