Telehealth and Compliance Challenges

HCCA Boston Regional Conference
Friday, September 6, 2019

Kyle Y. Faget, Special Counsel
O: 617-502-3292
kfaget@foley.com

Agenda

- State Licensure requirements and exceptions
- Telehealth practice standards and establishing a valid practitioner-patient relationship
- Accepted modalities for delivery of telehealth services
- Coverage and Reimbursement
- Direct-to-consumer telehealth, e-commerce, and fraud & abuse issues
What Services Do You Offer?

- Tech-Enabled Services
- Software Platform
- Marketplace
- Devices Products Ancillaries

Telemedicine and Licensing

- A physician offering care via telemedicine is subject to licensure rules of the state in which the patient is physically located at the time of the consult.
- State law expressly or implicitly requires licensure if the patient is located in the state at the time of the consult.
- Special rules for military and qualified military contractors when patient is located on base.
Florida Consultation Exception

- Florida licensure not required for a doctor located and licensed in another state or foreign country who is in actual consultation with a Florida-licensed doctor.

  - “Any physician lawfully licensed in another state or territory or foreign country, when meeting duly licensed physicians of this state in consultation.” See Fla. Stat. Ann. § 458.303(1)(b).

  - The term “consultation” encompasses the actions of a physician lawfully licensed in another state, territory or foreign country. Such physician is permitted to examine the patient, take a history and physical, review laboratory tests and x-rays, and make recommendations to a physician duly licensed in this state with regard to diagnosis and treatment of the patient. However the term “consultation” does not include such physician’s performance of any medical procedure on or the rendering of treatment to the patient. See Fla. Admin. Code Ann. r. 64B8-2.001(5); Fla. Admin. Code Ann. r. 64B8-9.0141(9)(a),(d).
Peer to Peer Consultation Exception

Interpretive summary only; not legal advice; state laws are constantly evolving and state laws must be analyzed and applied to a specific clinical application.

---

Telemedicine Practice Standards

1. New Patient vs. Established
2. In-Person Exam
3. Originating Site Restrictions
4. Patient-Site Telepresenter
5. Modality of Communication Technology
6. Remote Prescribing (incl. Controlled Substances)
7. Record-Keeping and Record-Sharing
8. Informed Consent
9. Credentialing
10. Disclosures
11. Malpractice & Professional Insurance Considerations
12. Patient Choice of Provider
Telemedicine and Evolving Modalities

 Characteristics of Asynchronous Telemedicine

- Dynamic, intelligent questionnaires using clinical decision trees based on best practices and evidence-based medicine
- Safeguards and exclusionary criteria
- Established patients with pre-existing doctor-patient relationship
- Incorporates clinically-relevant extrinsic medical information (e.g., photos, videos, diagnostic tests, labs, Bluetooth-enabled devices, prior medical records)
- Identifies the physician, creates a bona fide consult report and medical record, and allows for follow-up questions
- Medically-appropriate uses and emphasis on clinical protocols
Doctor-Patient Relationship

- Establishing a valid doctor-patient relationship is important because a valid relationship is required prior to a physician issuing an Rx.
- What constitutes a valid doctor-patient relationship varies from state to state.
- Many states do not require an in-person examination to establish a physician-patient relationship.

Some states explicitly allow a physician-patient relationship to be established via telemedicine, e.g., Kansas. HB 2028, § 3(b).

- The next question is what modality is required to establish the relationship via telemedicine.
- Kansas, for example, requires that telemedicine be provided by means of real-time, two-way interactive audio, visual, or audio-visual communications, including the application of secure video conferencing or store-and-forward technology. HB 2028, § 2(a)(5).
**Doctor-Patient Relationship**

Iowa: physicians may establish a valid physician-patient relationship “through telemedicine, if the standard of care does not require an in-person encounter, and in accordance with evidence-based standards of practice and telemedicine practice guidelines that address the clinical and technological aspects of telemedicine.” Iowa Admin. Code r. 653-13.11(7)(b).

- Iowa’s laws and rules do not address what modality is required to establish the physician-patient relationship.

---

**Doctor-Patient Relationship**

- A number of states’ laws and rules do not address whether telemedicine may be used to establish a physician-patient relationship, e.g., Michigan.
- Similarly, Michigan’s laws and rules are silent as to required modality.
Minimum Required Modality to Create Doctor-Patient Relationship

Interpretive summary only; not legal advice; state laws are constantly evolving and state laws must be analyzed and applied to a specific clinical application.

Minimum Required Modality After Creating Doctor-Patient Relationship

Interpretive summary only; not legal advice; state laws are constantly evolving and state laws must be analyzed and applied to a specific clinical application.
## Analyzing Telemedicine Modalities and State Law

<table>
<thead>
<tr>
<th>State</th>
<th>Modality used to establish valid doctor-patient relationship</th>
<th>Modality used after creating valid doctor-patient relationship</th>
<th>Modality used to prescribe non-controlled substances</th>
<th>Modality used to prescribe controlled substances</th>
<th>Internet prescribing rule prohibiting internet-based questionnaire?</th>
</tr>
</thead>
<tbody>
<tr>
<td>New Jersey</td>
<td>AV: Yes IA: Yes S&amp;F: No (but may be used with AV and IA)</td>
<td>AV: Yes IA: Yes S&amp;F: No (but may be used with AV and IA)</td>
<td>AV: Yes IA: Yes S&amp;F: No*</td>
<td>AV: Yes (but restrictions for Schedule II) IA: Yes (but restrictions for Schedule II) S&amp;F: Silent</td>
<td>Yes (questionnaire only prohibited before a doctor-patient relationship is established)</td>
</tr>
</tbody>
</table>

### Telemedicine Patient Informed Consent Requirements

Interpretive summary only; not legal advice; state laws are constantly evolving and state laws must be analyzed and applied to a specific clinical application.
Telemedicine Patient ID Verification Requirements

Interpretive summary only; not legal advice; state laws are constantly evolving and state laws must be analyzed and applied to a specific clinical application.

Telemedicine Special Notice/Disclosure Requirements

Interpretive summary only; not legal advice; state laws are constantly evolving and state laws must be analyzed and applied to a specific clinical application.
Recording Telemedicine Consults

Interpretive summary only; not legal advice; state laws are constantly evolving and state laws must be analyzed and applied to a specific clinical application.

Cost Savings and Cost Avoidance

Government FFS (Medicare, Medicaid)

Medicare Advantage, Medicaid MCOs

Commercial Health Plans

Self-Pay / Cash

Institutions, Providers

Employer Self-Funded Plans

Employer Pay (OOP)
What Are the Sources of Payment?

- Medicaid FFS
- Medicare FFS
- Medicaid Managed Care
- Medicare Advantage
- Commercial Insurance (incl. employer-pay)
- Self-Payment (retail medicine)

Telehealth Services and Medicare

1. Patient in a qualifying rural area
2. Patient at one of eight qualifying facilities (“originating site”)
3. Service provided by one of ten eligible professionals (“distant site practitioner”)
4. Technology is real-time audio-video (interactive audio and video telecommunications system that permits real-time communication between the beneficiary and the distant site provider)
5. The service is among the list of CPT/HCPCS codes covered by Medicare
Telehealth Commercial Insurance Laws

Interpretive summary only; not legal advice; state laws are constantly evolving and state laws must be analyzed and applied to a specific clinical application.

DTC Telehealth eCommerce Considerations

- Account creation
- Terms of Use
- Online Privacy Policy
- Notice of Privacy Practices
- E-Sign vs. Clickwrap
- FTC guidance for health technology apps
- ADA accessibility and disclosures
- State-specific requirements (disclosures, records management, other practice standards)
- Telephone Consumer Protection Act
- Payment processing and storing CC for recurring payments
- FDA/PhRMA and advertisements
## Fraud & Abuse Considerations

### Federal Laws
- Anti-Kickback Statute
- Physician Self-Referral
- Civil Monetary Penalties Law

### State Laws
- Patient Brokering Acts
- Self-Referral Laws
- Fee-Splitting Laws
- Corporate Practice of Medicine

![Diagram showing relationships between different laws]
No Valid Doctor-Patient Relationship
Phone Only + Cold Calling Patients
Pharmacy Buying Referrals
No Bona Fide Medical Group
No Charge for Telemedicine Consultation
No Copay Billed for Medications
Dictating Doctors’ Compound Formulations
No Patient Freedom of Choice
No Safe Harbors Met

Compliance Red Flags
